Suitable extinguishing media : Carbon dioxide (CO₂). Powder.
Unsuitable extinguishing media : Water spray.

5.2. Special hazards arising from the substance or mixture

Fire hazard : Pressurized container. On heating there is a risk of bursting due to internal pressure build-up. Toxic vapours may be released. Vapour mixes readily with air, forming explosive mixtures. Heavier than air, vapours may travel long distances along ground, ignite and flash back to source.

5.3. Advice for firefighters

Firefighting instructions : Clear the danger area. Do not breathe fumes. Cool down the containers exposed to heat with a water spray. Do not dispose of fire-fighting water in the environment.
Protection during firefighting : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Emergency procedures : Avoid contact with skin and eyes. Do not breathe aerosol. Keep away from ignition sources (including static discharges). In case of important spillage : Only qualified personnel equipped with suitable protective equipment may intervene. Mechanically ventilate the spillage area, whilst avoiding the formation of explosive concentrations.

6.1.2. For emergency responders

Protective equipment : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".

6.2. Environmental precautions

Do not discharge into drains (explosive hazard).

6.3. Methods and material for containment and cleaning up

For containment : Collect the residue by means of a non-combustible absorbent material.
Methods for cleaning up : Wash contaminated area with large amounts of water.
Other information : Dispose of contaminated materials in accordance with current regulations.

6.4. Reference to other sections

For further information refer to section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling : Ensure good ventilation of the work station. Avoid any direct contact with the product. Do not breathe spray. Smoking is forbidden. No flames, no sparks. Eliminate all sources of ignition. Access forbidden to unauthorised personnel. Use non-sparking tools. Material and equipment suitable for use under explosive conditions. Avoid high temperatures. Avoid the build-up of electrostatic charge. Do not spray on a naked flame or any incandescent material. Following use, do not pierce or burn the packaging, even if it is empty.
Hygiene measures : Do not drink, eat or smoke in the workplace. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Store in a cool, well-ventilated place. Keep away from heat. Keep away from sources of ignition. Protect from sunlight.
Incompatible products : Strong oxidizing agents. Strong bases. Oxidizing materials.
